

SPANISH IMMERSION

Issue 2, March 27, 2020

Families are invited to explore these weekly resources that have been curated with Spanish immersion students in mind. These resources are offered for families interested in additional ways to supplement learning activities beyond those that are provided by classroom teachers.

We hope students and families will find some digital spaces to explore, engage, and enrich personal learning interests at home. We plan to post new editions on Fridays.

RESOURCES AND OPPORTUNITIES

LOW TECH / NO TECH ACTIVITY

Crea una “caja de creaciones.” Busca en tu casa cosas que fomentan creatividad y que puedes usar para inventar algo. Algunas ideas: cajas pequeñas de cartón, tubos de papel, tubos de plástico, LEGOs, hilo, bloques de madera, cinta, papel, Q-tips, etc. ¿Qué puedes inventar? ¿Cómo puedes compartirlo con otras personas?
