

RESOURCES for Remote Learning

GRADES 3-5

Issue 1, March 20, 2020

Families are invited to explore these weekly resources that have been curated with grades 3-5 in mind. These resources are offered for families interested in additional ways to supplement learning activities beyond those that are provided by classroom teachers.

We hope students and families will find some digital spaces to explore, engage, and enrich personal learning interests at home. We plan to post new editions on Fridays.

RESOURCES

[Confident Parents Confident Kids](#): A parent guide to support students' social-emotional development.

[World Book Online](#) Explore a collection of books, videos, activities, and photographs.

OPPORTUNITIES

[March Fitness Challenge](#): Keep your mind and body active

[Storytime From Space](#) Children's books read aloud from the International Space Station

LOW TECH-NO TECH ACTIVITY

Create a "maker box." Look around your home for supplies that encourage creativity, building, and invention. Some ideas: small cardboard boxes and tubes, Play-Doh, PVC plastic pipes and connectors, LEGOs, string, wooden building blocks, duct tape, Lincoln Logs, pipe cleaners, Q-tips, etc. What might you create? How might you share it with others?
