

## RESOURCES for Remote Learning

**GRADES 9-12**

*Issue 1, March 20, 2020*

Families are invited to explore these weekly resources that have been curated with grades 9-12 in mind. These resources are offered for families interested in additional ways to supplement learning activities beyond those that are provided by classroom teachers.

We hope students and families will find some digital spaces to explore, engage, and enrich personal learning interests at home. We plan to post new editions on Fridays.

### RESOURCES

[Confident Parents Confident Kids](#): A parent guide to support students' social-emotional development

[March Fitness Challenge](#): Keep your mind and body active

### OPPORTUNITIES

[Inky Art School](#): All you need is a pencil and some paper

[NY Times Article](#): Read the article and then consider: What would you teach the world?

Possible discussion questions:

What talents or expertise would you want to share in your own Internet video?

How would you keep your viewers interested? How would you make your video unique?

What new skills or materials would you need in order to make your video?

[Better Than Cash: How Awards Can Shape Our Behavior](#): NPR Hidden Brain podcast (28 min)

Possible discussion questions:

What do you agree with and disagree with and why?

What connections did you make while listening to this podcast?

What surprised you?

[Chrome Music Lab](#): Experiment with music

[Testing If Sharks Can Smell a Drop Of Blood](#): Mark Rober, NASA engineer (15:34 min video)

Possible discussion question:

What might be your next experiment to further the testing of this phenomenon?
